exempted from payment of the toll when their carts and cattle pass for purposes of agriculture.

Reply of Government.—The recent orders of Government meet these wishes to some extent. Further proposals, if any, from the Deputy Commissioner will be duly considered and dealt with suitably.

Subject No. 351.
A Munsiff's Court at Hunsur.

Summary of discussion.—The Munsiff's Court at Mysore is 55 or 60 miles away from some of the villages of the Hunsur Taluk, and parties find it very difficult to attend the same. It is therefore requested that a Munsiff's Court may be established at Periyapatna or Bettadapur or Chilkunda or Hunsur.

Mr. Narasinga Rao of Hunsur Taluk suggests the location of the Court at Hunsur or Yedatore with jurisdiction over both the Taluks.

Reply of Government.—Unnecessary.

Subject No. 352.
Water-supply to Hunsur Town.

Summary of discussion.—A small portion of the town of Hunsur is now supplied with pipe water. The existing fountains are, when full, a source of danger to the public and require an establishment to clear them from time to time. The storage reservoir may be removed to a place near the old dispensary and the town supplied with water therefrom. The present fountains may also be replaced by pipes fixed in walls and in masonry pillars as is done in the Mysore City.

Reply of Government.—Noted for needful action when funds become available.

Subject No. 353.
Opening of a road from the Lakshmanathirtha River to Katte Malalavadi

Summary of discussion.—The opening of a road from the Lakshmanathirtha bridge to Kattemalalavadi *viâ* Muslepettu, Hiripettu, Marchahalli, Hosahalli and other villages, is necessary for the benefit of the villagers travelling to Mysore and Hunsur and also for the convenience of the large number of people who annually assemble at a Christian village (Kirastan Koppal) in June and December. The work does not require the construction of any bridge, and may be carried out from Local Funds.

Reply of Government.—This is for the District Fund Board to settle.

Subject No. 354.
Grant of Uddur Kaval belonging to the Public Cattle Department for cultivation.

Summary of discussion.—The Public Cattle Department at Hunsur formerly had 5,000 bulls and it then required 24,000 acres of land for grazing purposes. The number of cattle has since been reduced to 1/10th or only 500. If the Uddur Kaval situated under a channel of the same name close to the town of Hunsur and measuring 2,000 acres be taken back from the Public Cattle Department, and granted for wet cultivation, it would yield a revenue of Rs. 10,000 to Government annually. Further the land belonging to this kaval, being marshy, is unsuited
